- e) What month is your birthday in?

- f) What is your favorite month of the year?

- g) What is the month with 28/29 days?

3 - Identify the seasons:

It is the hottest season of the year! The days are longer and the sun shines brightly in a clear sky. During this time of the year, the trees are full of leaves. It's clearly the best time to go to the beach since the weather is warm and the days are sunny.

(Spring - Summer - Autumn - Winter)

The days become shorter, leaves start to fall from the trees, and piles of leaves rest on the ground. Also, the temperatures start dropping and it gets a little bit colder every day. This season is known in some parts of the world as the harvest season because it's then that most crops are ready to be harvested.

(Spring - Summer - Autumn - Winter)

The daylight hours become longer, the sun shines a little stronger, and flowers begin to bloom. Also, the temperatures start to drop, and it is windy and rainy sometimes.

(Spring - Summer - Autumn - Winter)

It's the coldest season of the year. The days are short and nights are long. In some places it's the rainfall season. It is also known as the cold season, the perfect time to practice snowboarding.

(Spring - Summer - Autumn - Winter)
