OS SONS DA LÍNGUA INGLESA: MONOTONGOS AULA 17

Os sons de /u/ e /ʊ/ são facilmente confundidos por falantes da língua portuguesa. Assim como outros sons de vogais no inglês, o som de /ʊ/ não existe na língua portuguesa. Isso torna nossa percepção desse som um pouco mais difícil, e faz com que seja frequentemente substituído pelo som de /u/. Nesta aula abordaremos os dois sons através de comparação e muitos exemplos. Lembre-se, ao final da aula, pratique com o áudio que será disponibilizado. No áudio todas as frases e palavras serão faladas por um nativo da língua inglesa.
