Name the topology

You're a network engineer and you're analyzing a diagram that has multiple topologies, how would you name it?

Selecione uma alternativa

A	Since we have a diagram with multiple topologies we would call it a Hub and spoke topology

B	Since we have a diagram with multiple topologies we would call it a Full-mesh topology

C	Since we have a diagram with multiple topologies we would call it a Partial-mesh topology

D	Since we have a diagram with multiple topologies we would call it a Hybrid topology
