Questão #20

PROGRESSO:

20/60

You have videos which you upload to an S3 bucket. You want to provide access to users to view the videos. You want to provide the best user experience no matter where the user is located. What is the best alternative to achieve this?

Selecione uma alternativa

A Enable Cross region replication for the S3 bucket to all regions.

B Use AWS Lambda functions to deliver the content to users.

C Use Cloudfront with the S3 bucket as the source.

D Use API gateway with S3 bucket as the source.
