

This template is modular so you can arrange the scenes in any way you want. **If you have any problem customizing the project, drop me an email through my profile page and I'll be glad to help you.**

Always extract all the contents of the zip before you open the template (*.aep)

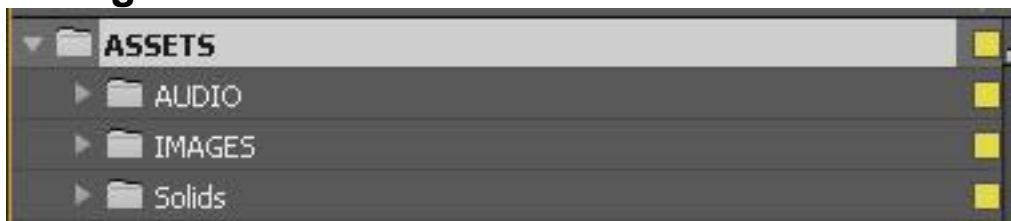

PROJECT STRUCTURE

This is the structure of the template when you first open the Project file.

ASSETS

This folder contains 3 subfolders to organize your footage.

The **AUDIO** sub-folder contains the free audio track bundled with the template.

IMAGES

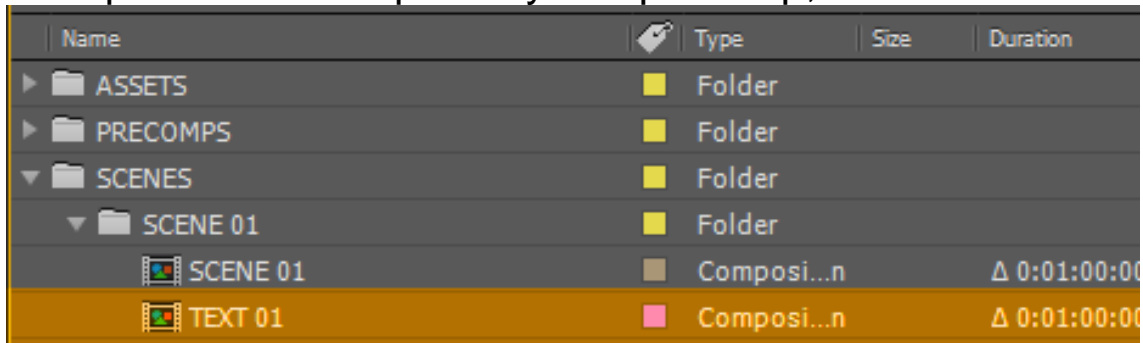

The **IMAGES** folder contains the free textures and images used in the project.

PRECOMPS

The PRECOMPS folder contains all the precomposed elements created in AE.

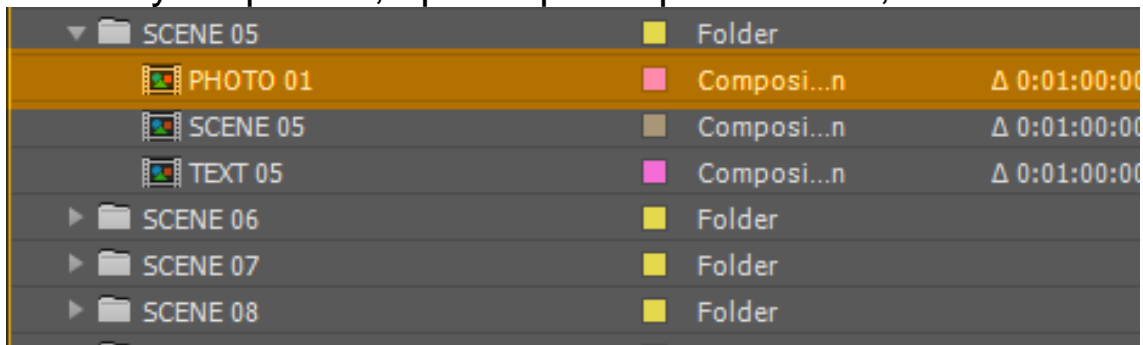

ADDING YOUR TEXT AND FOOTAGE

To replace the text open any text precomp,

double click on the text layer and enter the new text. You can use the **Character palette** to modify the text properties (font size, color, stroke, leading, etc).

To add your photos, open a photo placeholder,

and drop your image inside. You can scale the image to make it fit the frame

RENDER COMPS

There are 2 render comps, **RENDER COMP NTSC** and **RENDER COMP PAL**. Use **ntsc** if your footage is 29,97 fps and **pal** if you are working in 25 fps

If you have any trouble customizing the template, drop me an email through my profile page and I'll be glad to help you out.

Don't forget to rate the project and enjoy this new template by sonorafilms.

Here you can buy the audio track:
